Subject: RE: Smart Meters

Is it true that the UN is now directing you to use smart meters? Is this a lead up to global control of the U.S. under sustainable guidelines set by them? If it is tell APS to get that meter off of my house now. I want the old style meter not the digital type. I pay for the service and I don't want them controlling my use. David L. Casey Republican P.C. Canyon 46.
